REVIEW OF AUGUST—COMMERCIAL AND FINANCIAL EVENTS.

Foremost among the events of August was what it is hoped will prove a virtual declaration of world peace at Paris on Aug. 27 1928, not quite ten years after the ending of the World War. The declaration consisted in the signing by fifteen principal powers of the world (The United States along with fourteen other countries), of the general treaty renouncing war as an instrument of national policy which was slowly developed in negotiations conducted chiefly by United States Secretary of State Frank B. Kellogg. The negotiations took their rise from a proposal made by Foreign Minister Aristide Briand of France on June 20 1927 for a "Pact of Perpetual Friendship" between the United States and France. Secretary Kellogg, in a note to the French Minister, dated Dec. 28 1927, took up this proposal actively and suggested that it be extended to include practically all civilized nations. Early this year, Mr. Kellogg, using the French Minister's proposal as a basis, submitted the text of a treaty to M. Briand and proposed that France and the United States join in an effort to gain the adherence of other governments. After lengthy negotiations and despite great difficulties, the treaty was finally submitted by Mr. Kellogg to Great Britain, Germany, Italy and Japan, the French Minister submitting to the same nations an alternate treaty in which many reservations were embodied. After further discussions, and after extending the negotiations so as to include all the Locarno signatories, the British Dominion Governments, and India, Mr. Kellogg was assured in July, as noted in our narration for that month, of the adherence of all the Governments concerned. The French treaty text was quietly dropped in the meantime, and the Kellogg treaty adopted with only a minor change in the preamble.

The treaty is one of the simplest documents in diplomatic annals. There are no "sanctions" or other means for giving effect to its provisions, nor are there any encumbering "reservations" in the treaty itself, though as we noted in July, most of the principal countries, in their communications signifying assent, felt impelled to attach reservations and conditions the effect of which remains to be determined. Article 1 of the treaty simply provides that "the High Contracting Parties solemnly declare in the names of their respective peoples that they condemn recourse to war for the solution of international controversies, and renounce it as an instrument of national policy in their relations with one another." By Article 2 "the High Contracting Parties agree that the settlement or solution of all disputes or conflicts of whatever nature, or of whatever origin they may be, which may arise among them, shall never be sought except by pacific means." A third and concluding article provides for the coming into effect of the treaty upon ratification by the constituted treaty making bodies of all the Governments concerned, the treaty to "remain open as long as may be necessray for adherence by all the other powers of the world."

The preamble of the treaty sets out the high purpose animating the governments which are parties to it. After naming these Governments and giving the titles in each instance of their chief executives and those chosen to represent them, the preamble goes on to make the following declaration:

Deeply sensible of their solemn duty to promote the welfare of mankind; Persuaded that the time has come when a frank renunciation of war as an instrument of national policy should be made to the end that the peaceful and friendly relations now existing between their peoples may be perpetuated;

Convinced that all changes in their relations with one another should be sought only by pacific means and be the result of a peaceful and orderly process; and that any signatory power which shall hereafter seek to promote its national interests by resort to war should be denied the benefits furnished by this treaty;

Hopeful that, encouraged by their example, all the other nations of the world will join in this humane endeavor and by adhering to the present treaty as soon as it comes into force, bring their peoples within the scope of its beneficent provisions, thus uniting the civilized nations of the world in a common renunciation of war as an instrument of their national policy;

Have decided to conclude a treaty, &c.

Plenipotentiaries of the fifteen Governments constituting the "original signatories" gathered in Paris on Aug. 27 for the formal signature of this treaty. The ceremony was austerely simple, in keeping with the treaty itself. The signatures were affixed in the sumptuous Salle de l'Horloge of the French Foreign Office in the Quai d'Orsay, while the room was flooded with the brilliant illumination of six great sunlights, which made possible the taking of moving pictures of the momentous occasion. The meeting was presided over by M. Briand, who made the sole speech of the occasion. On his right sat Dr. Gustav Stresemann, Foreign Minister of a Germany much changed from the mortal enemy of France of ten years ago. On his left was United States Secretary of State Frank B. Kellogg, to whose efforts the meeting was due. Mr. Kellogg said no word in explanation, extenuation or praise of his treaty. Dr. Stresemann signed first for Germany in accordance with the alphabetical succession occasioned by adoption of French spelling, the French for Germany being Allemagne. The assemblage was assured by M. Briand, in the sole preliminary speech, of his full consciousness that silence would best befit such a solemn occasion. Nevertheless, he paid tribute to "the greatest collective deed born of peace," and expressed the hope that the ceremony would cause the peaceful intentions of France "at last to be understood by the world." Turning first to the American Secretary, he said: "Seated to-day among us in this same hall where his illustrious forerunner, President Wilson, associated already with works of peace, and with so high a consciousness of the role of his country, the honorable Mr. Kellogg is able to measure with just pride all the road covered in so short a time since the epoch when we examined, both of us, the possibilities of realization of this vast diplomatic enterprise." M. Briand next paid tributes to Dr. Stresemann and to the absent Sir Austen Chamberlain, Foreign Secretary of Great Britain. The treaty, he pointed out, unlike most such documents, was not born of war. It was not to settle a conflict, but to prevent conflicts. The League of Nations, he added,

deeply imbued with the same spirit, had likewise issued a declaration tending to obtain eventually the same results as the new pact, but the United States had no share in that proceeding, whereas the new "Pact of Paris" brought America's signature. Far from being inconsistent with any of the obligations of the League, the French Minister continued, this new act, on the contrary, offers it a kind of general reinsurance. "Thus," he said, "those of its members who will soon be able to ask the League to register to-day's contract will rightly feel that they are bringing it a precious token of their attachment and loyalty."

Continuing, M. Briand declared that the new treaty branded as illegal, war which had always been the attribute of sovereignty. The treaty, he said, aimed to abolish selfish and wilful war, and "thus shall the smaller nations henceforth enjoy real independence in international discussions." Henceforth, he asserted, "a state which would act so as to incur the reprobation of all its partners, would run the positive risk of seeing all of them gradually and freely gather against it with redoubtable consequences that would not be long in ensuing." Reminding his hearers of the interdependence of peoples, M. Briand quoted the words of President Coolidge: "An act of war in any part of the world is an act that injures the interests of my country." Predicting that all nations would quickly become parties to the new agreement, and referring to the great hope thereby awakened, M. Briand added: "It will henceforth behoove us as a sacred duty to do all that can and must be done for that hope not to be disappointed. Peace is proclaimed. That is well; that is much; but it still remains necessary to organize it. In the solution of difficulties right, and not might, must prevail. That is to be the work of to-morrow." In closing, the venerable French Minister remarked that all the nations represented had shed blood in the World War. "I propose," he said finally, "that we should dedicate to the dead, to all the dead of the Great War, the event which we are going to consecrate together by our signatures."

Comment on the new "Pact of Paris," and congratulations over its adoption by the plenipotentiaries gathered in Paris were evoked in many quarters in the days immediately before and after the signing of the treaty. Although not all the expressions were entirely optimistic, the great majority of the statesmen hailed the opportunity to sign the compact, remarking that they saw in it a new assurance against the dread evil of international warfare. President Coolidge on Aug. 26 sent a message to Gaston Doumergue, President of the French Republic, in which he tendered his cordial congratulations on the successful outcome of the negotiations. "The treaty to be signed in Paris," Mr. Coolidge said, "had its inception in the proposal submitted last year by the Government of France to the Government of the United States. The idea of M. Briand has been made world-wide. I am confident that the simple provisions of this treaty will be accepted by all nations, because I am sure there is everywhere a will for peace. It is a great forward step in the preservation of peaceful relations between the nations, and, therefore, will, I know, prove to be a historic document in the history of civilization." M. Doumergue, in a reply of the following day, thanked Mr. Coolidge for his message and added: "The French nation is thankful for and proud of the honor bestowed upon it in the reception of the foreign plenipotentiaries and cannot forget that thanks are due to the skillful and conciliatory efforts of the President and of the Secretary of State of the United States for the manner in which the covenant was received by the leading nations of the world, which befitted the trait of universality that makes its power and greatness."

Lord Cushendun, who signed the treaty for Great Britain, Northern Ireland and India, taking the place of Sir Austen Chamberlain, the Foreign Secretary, said in an interview in Paris shortly after the signing: "No one imagines this treaty will finally banish all war. We must keep that clear if we are to avoid disappointments. Yet the ceremony from which we have just come is the most significant and impressive demonstration of a will for peace which the world has ever yet seen. We have reached the point in the civilization of the world when war must be considered shameful, and the spirit which the signing of this treaty manifests is the best guarantee the world could have that its civilization is advancing. Do not let us be led away by pessimists and cynics. I personally have not the least doubt that this is by far the biggest step yet taken toward the stabilization and perpetuation of peace. In so far as America is concerned, I do not think the great part played by Mr. Kellogg should be interpreted to mean that we can expect any modification of the traditional American policy of aloofness. So far as the pact is concerned, it does not carry with it, so far as I can see, any implication on the part of America that she intends to enlarge her interest in European affairs."

Following the signing of the multilateral treaty for the renunciation of war, it was announced at Washington on Aug. 28 that the United States had extended an invitation to 48 nations with which it has diplomatic relations, to become signatories to the pact, along with the 15 nations which joined in the signing of the treaty on Aug. 27. The only countries not addressed by the United States are Russia, which was invited by France; San Marino and Monaco, with which the United States has only consular relations, and Andorra, with which this country has no official relations. In the case of Afghanistan the invitation in behalf of the United States was presented by Ambassador Herrick at Paris to the Minister from Afghanistan, since the United States has no Minister to Afghanistan. The 48 nations which have been invited to indicate their adherence to the treaty are:

Afghanistan	Dominican Republic	Liberia	Salvador
Albania	Ecuador	Lithuania	Kingdom of the Serbs, Croats & Slovenes
Argentina	Egypt	Luxemburg	
Austria	Estonia	Mexico	
Bolivia	Ethiopia	Netherlands	Siam
Brazil	Finland	Nicaragua	Spain
Bulgaria	Greece	Norway	Sweden
Chile	Guatemala	Panama	Switzerland
China	Haiti	Paraguay	Turkey
Colombia	Honduras	Persia	Uruguay
Costa Rica	Hungary	Peru	Venezuela
Cuba	Iceland	Portugal	
Denmark	Latvia	Rumania	

Yugoslavia was the first of the forty-eight states thus invited to sign the new treaty, Foreign Minister Marinkovitch attaching his signature just six hours after receiving the invitation in Belgrade. Formal notification of intention to adhere was received also in Washington from Peru, Liberia, Denmark, Bolivia, Austria, Cuba, Costa Rica, Santo Domingo and Rumania, these acceptances reaching the State Department on Aug. 29. Dispatches from the respective capitals indicated that acceptances might be expected from Lithuania, Brazil, Panama, Czechoslovakia, Greece and Hungary, Bulgaria, Norway and others. In a Washington dispatch to the New York "Times," it was pointed out that "should all the nations that have been informed that the treaty has been signed adhere to it, the pact would have the signatures of sixty-four nations, the greatest number of signatories to any multilateral agreement in world history. With the exception of the League of Nations Covenant, no other multilateral or international treaty has had nearly so many signatures. The representative of fifty-four nations signed the League Covenant."

In a financial line there were at least two developments of importance during August. The first was a move instituted by the New York Clearing House Association, having for its object the curbing of loans by corporations and others than banks on Stock Exchange collateral. The initial step, taken by the Clearing House Committee on Aug. 2, provides for an increase in the rate paid on deposits by Clearing House members; in addition a change in the service charge imposed by banks for street loans for others than banks and bankers (meaning for depositors) was, beginning Sept. 1, altered so as to make it ½ of 1% of the principal of the loan—$100,000 being fixed as the minimum of such loan. The previous service charge was 5% of the interest accruing on the loan. The 45 reporting member banks of the Federal Reserve in New York City, in their weekly returns, segregate their loans to brokers and dealers (secured by stocks and bonds) under three separate headings, namely: (1) the loans which they make for their own account; (2) the loans made by them "for account of out-of-town banks," and (3) the loans which they make "for account of others." The expansion as compared with a year ago, an expansion which has excited so much uneasiness, has been entirely in the loaning under the two latter heads, and especially in the loaning "for account of others."

These loans "for account of others"—representing loans which the banks make for account of their large depositors, corporate and individual—have been growing with startling rapidity. According to the return for Aug. 1 these loans on that date aggregated no less than $1,852,631,000, as against only $872,771,000 on Aug. 3 1927, an expansion under that head during the twelve months, it will be seen, of not far from $1,000,000,000. In such loaning the banks act merely as agents of their depositors. The depositors in turn by em-

ploying their balances at the banks in the making of loans on the Stock Exchange are actuated by a desire to avail of the high rates of return that it has been possible to obtain in that way. The deposits, if kept with the banks, earned simply the rate of interest paid by the banks on deposits, say 2@3% per annum. On the other hand, in loaning on the Stock Exchange it has been possible to get recently all the way from 5 to 10%. The very week the Clearing House acted the range for call loans on the Stock Exchange ranged from 5½ to 8%. In the circumstances it was not strange that the loaning "for account of others" had been rapidly increasing and that the aggregate of moneys loaned in that way had been mounting with a rapidity that arrested general attention. Acting merely as agents for the depositors it can be readily seen that the banks do not hold the same degree of control over such loaning as they do in making loans for their own account. Nominally the banks had the remedy in their own hands. They could refuse to allow themselves to be used in that way any longer. They could decline to continue to act as agent for the depositor. Yet the problem was not free from difficulty. The accounts of many of these depositors are valuable and the banks would not like to lose them. Besides, should the Clearing House banks peremptorily refuse to serve in that capacity it is by no means certain that other banking institutions could not be found to accept the accounts and gladly act as agents for the depositors in placing the money on the Stock Exchange. In that event the banks would have lost the business without the situation being in the slightest degree changed for the better. The matter was one that had to be handled judiciously, and plainly, too, it could only be handled collectively. No single bank or even group of banks could adopt a go-it-alone policy. The action of the Clearing House is calculated to put a curb on the business rather than to stop it altogether. On the one hand, it has increased the rate of interest allowed on the deposit and on the other hand it has raised the service charge which the depositor is obliged to pay to the bank when it acts as his agent in loaning the money.

By raising the rate of interest allowed on deposits, the inducement to let the deposit remain with the bank is increased, and by increasing the service charge for negotiating the loan and for attending to all the details connected with the loan, the profit to be derived by the depositor from Stock Exchange loaning is diminished. The raising of interest rates was done by the Clearing House Committee on its own initiative, after consulting most of the members of the Clearing House, that being within its province. The higher rates were announced on Thursday, Aug. 2, and became effective as already stated, on Monday, Aug. 6. The raising of the service charge for acting for depositors who insist on loaning on the Stock Exchange, was made by the Association itself at a meeting held Aug. 3, and did not become effective until Sept. 1, permitting a considerable lapse of time during which the effectiveness of the higher interest rates on deposits can be tested all by themselves. Stated in brief, devoid of technicalities, the rate of interest allowed out-of-town banks was increased from 1¾ to 2%; the rate allowed on commercial accounts from 2% to 2½%, and the rate on time deposits of thirty days or longer, from 2½% to 3½%. The old rates of interest had remained unchanged for over four years—that is, had been in force since June 12 1924. It only remains to add that brokers' loans "for account of others" continued to increase and as against $1,852,631,000 Aug. 1, the amount had risen to $1,907,219,000 Aug. 29.

The other financial development of the month was the way the Federal Reserve Board disposed of a proposal from one of the clearing house associations (name not given) "recommending preferential discount rates by Federal Reserve Banks on collateral notes secured by Government obligations, the discount rate in each case to be the same as that borne by the security." The communication received by the Federal Reserve Board was as follows:

Referring to loans made member banks secured by United States securities, we feel preferential rate of interest should be charged on transactions of this character, rate not to exceed rates borne by securities in accordance with previous ruling. In view of forthcoming financing by Treasury Department, we feel this matter should receive the immediate and careful consideration of Federal Reserve Board. Present rates penalize banks assisting in financing.

The Federal Reserve Board, speaking by Secretary of the Treasury Andrew W. Mellon as Chairman of the Board, disposed of the proposition in short order. Mr. Mellon gave as the first reason for rejecting the proposal that (1) it (the Board) would not care to discriminate against commerce and industry by approving a rediscount rate of as low as 3¼% on collateral notes secured by Government obligations, while simultaneously certain Reserve banks would be permitted to charge 5% on eligible commercial, agricultural and industrial paper." But Mr. Mellon and the Reserve Board did not rest their objections on this single point. They mentioned various other reasons for opposing the suggestion. Thus they said that "if your proposal was put into effect at the present time it would permit a member bank to buy United States bonds in the present market on a yield higher than the bonds bear (this referring to the fact that many of the obligations of the United States bearing a low rate of interest are selling below par) and the member would be prompted to rediscount to make such purchase solely for profit." Mr. Mellon mentioned additional and still stronger reasons for rejecting the proposal. He added: "Member banks own over $4,000,000,000 of United States Government bonds, and, upon reflection, we believe your Clearing House will agree with us that the invitation for profit would be too great for many of the banks to resist and only result in inflation that eventually would work wide-spread disaster to our entire financial structure and, indirectly, to the business interests of the country." It is not difficult to perceive what prompted the proposal of a special rediscount rate on U. S. Govt. collateral more favorable than that charged for rediscounting commercial paper. One of the anomalies of Government financing recently has been that the U. S. Treasury has been able to obtain over subscriptions on offerings of new obligations which almost immediately sold below par. In July, for instance, the Secretary invited subscriptions to Treasury bonds bearing only 3⅜% interest and maturing June 15 1943, but subject to redemption at the option of the United States on and after June 15 1940. There was a combined offering of the new Treasury bonds for cash subscription and in exchange for the outstanding Third Liberty Loan 4¼s, which mature the coming Sept. 15. The exchange subscriptions were very slow in coming in and proved relatively light, notwithstanding the Treasury Department offered as a special inducement for making the exchange double interest for a certain definite period. On the other hand, the $250,000,000 cash offering of these Treasury bonds proved a decided success, these subscriptions aggregating no less than $743,767,700. Yet these new Treasury bonds from the very first sold at a discount and it was evident at the very outset that this would be the case. Dealings in the new Treasury bonds began on the Stock Exchange on July 18 and the best price on that day was 99@99 8/32; later in the month (on July 27) they got down to 98 20/32, and in August sold as low as 98 (a discount of full 2%), with the closing price on Aug. 31 98 31/32. That there should have been oversubscriptions for a bond issue at par that sold immediately at a discount of full 1% and later at a discount of 2% was certainly a decided anomaly. The explanation of the anomaly doubtless was that the subscriptions came largely through the banks which are permitted to carry the subscription payments as Government deposits, against which no reserves are required, and of course also the bonds are available for borrowing at the Reserve institutions.

The Government will have to do some more financing in September in connection with the retirement of the Third Liberty Loan bonds which have failed (about $1,000,000,000 in the aggregate) to accept the various propositions of exchange made by the Government in advance of the maturity of the bonds, and the Clearing House sponsoring the proposition of a lower rediscount rate on Government obligations foresaw the possibility of a repetition of the July experience and wanted to be prepared for it. As a matter of fact, the Clearing House referred to in its communication to the Reserve Board made distinct reference to the "forthcoming financing by the Treasury Department." and gave that as a reason for urging a preferential rate on Government obligations, adding the remark that "present rates penalize banks assisting in financing." The allusion to Treasury financing, however, did not make the slightest appeal to the Secretary of the Treasury who replied with some spirit, and said: "Under normal peace-time conditions, the Treasury should and does pay the ordinary market rates for money, the same as any other borrowers. Moreover, the credit of the United States Government is so good that there is no occasion whatsoever for attempting by artificial means to place United States Government securities in a favored position as compared with commerce, industry and agriculture."

Political developments were also rather important, inasmuch as they included the acceptance addresses of the candidates of both the great political parties for the Presidency at the November election on the formal tender to them of the nomination by the respective parties—Herbert Hoover for the Republicans, and Alfred E. Smith for the Democrats. Governor Smith's acceptance speech on Wednesday night, Aug. 22 made the liquor question the paramount issue of the campaign—in fact, virtually the only issue, since on the Farm question and other leading points

of controversy, his expression of views accorded so closely with the views of Mr. Hoover, his Republican opponent, as to make it difficult to find any essential points of difference between the two. On the other hand, on the liquor question the views of the two men proved as wide apart as the poles. Mr. Hoover, in his acceptance speech said, without qualification, "I do not favor the repeal of the 18th amendment," meaning the Federal Prohibition amendment, which by its first paragraph declares that "the manufacture, sale, or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States, and all territory subject to the jurisdiction thereof, for beverage purposes, is hereby prohibited." Governor Smith in defining his position on this prohibition amendment, also spoke without reserve or equivocation. He said: "I personally believe in an amendment to the 18th Amendment which would give to each individual State itself, only after approval by a referendum popular vote of its people, the right wholly within its borders to import, manufacture, or cause to be manufactured, and sell alcoholic beverages, the sale to be made only by the State itself and not for consumption in any public place."

Secretary of Commerce Hoover formally accepted the nomination as President on the Republican ticket in a speech delivered on Aug. 11 in the stadium at Stanford University, Palo Alto, Cal. In indicating his position on the prohibition question, he restated his previously announced stand on the Eighteenth Amendment, saying:

"I do not favor the repeal of the Eighteenth Amendment. I stand for the efficient enforcement of the laws enacted thereunder. Whoever is chosen President has under his oath the solemn duty to pursue this course. . . .

"Common sense compels us to realize that grave abuses have occurred—abuses which must be remedied. An organized searching investigation of fact and cause can alone determine the wise method of correcting them. Crime and disobedience of law cannot be permitted to break down the Constitution and laws of the United States.

"Modification of the enforcement laws which would permit that which the Constitution forbids is nullification. This the American people will not countenance. Change in the Constitution can and must be brought about only by the straightforward methods provided in the Constitution itself. There are those who do not believe in the purposes of several provisions of the Constitution. No one denies their right to seek to amend it. They are not subject to criticism for asserting that right. But the Republican Party does deny the right of any one to seek to destroy the purposes of the Constitution by indirection.

In his declarations as to the farm relief problem, Mr. Hoover made the statement, that "the farm is more than a business. It is a state of living. We do not wish it converted into a mass production machine. Therefore, if the farmers position is to be improved, it must be done not on the farm, but in the field of distribution." He added in part:

"An outstanding proposal of the party program is the whole-hearted pledge to undertake the reorganization of the marketing system upon sounder and more economical lines. We have already contributed greatly to this purpose by the acts supporting farm co-operatives, the establishment of intermediate credit banks, the regulation of stockyards, public exchanges and the expansion of the Department of Agriculture. The platform proposes to go much farther. It pledges the creation of a Federal Farm Board of representative farmers to be clothed with authority and resources with which not only to still further aid farmers' co-operatives and pools and to assist generally in solution of farm problems, but especially to build up with Federal finance farmer-owned and farmer-controlled stabilization corporations which will protect the farmer from the depressions and demoralization of seasonal gluts and periodical surpluses."

Secretary Hoover further declared that "an adequate tariff is the foundation of farm relief." On the subject of the tariff and the immigration law he averred:

The Republican party has ever been the exponent of protection to all our people from competition with lower standards of living abroad. We have always fought for tariffs designed to establish this protection from imported goods. We also have enacted restrictions upon immigration for the protection of labor from the inflow of workers faster than we can absorb them without breaking down our wage level.

The Republican principle of an effective control of imported goods and of immigration has contributed greatly to the prosperity of our country. There is no selfishness in this defense of our standards of living. Other countries gain nothing if the high standards of America are sunk and if we are prevented from building a civilization which sets the level of hope for the entire world. A general reduction in the tariff would admit a flood of goods from abroad. It would injure every home. It would fill our streets with idle workers. It would destroy the returns of our dairymen, our fruit, flax and livestock growers, and our other farmers.

No man will say that any immigration or tariff law is perfect. We welcome our new immigrant citizens and their great contribution to our nation; we seek only to protect them equally with those already here. We shall amend the immigration laws to relieve unnecessary hardships upon families.

We have pledged ourselves to make such revisions in the tariff laws as may be necessary to provide real protection against the shiftings of economic tides in our various industries.

In an address, delivered on Aug. 21 at his birthplace, West Branch, Iowa, Mr. Hoover enlarged upon his views regarding agricultural relief and made known his intention, in the event of his election as President, to invite former Governor Lowden and other farm leaders to join in a conference with a view to finding a solution of the farm relief problem. In his address at West Branch, Mr. Hoover also called attention to "the importance of the development of our interior waterways as bearing on the prosperity not only of agriculture but of the whole of our Midwest business and commerce." Mr. Hoover in his speech of Aug. 21 said in part:

Proposals for Farm Relief.

In my acceptance speech ten days ago I made an extended statement upon the legislative proposals for relief to the agricultural industry which the Republican Party has put forward in its platform. You would not wish me to take your time to review that statement. I should, however, like to emphasize that the spirit of those legislative proposals is to work out a more economical and stable marketing system. A Federal Farm Board is to be set up with the necessary powers and resources to assist the industry to meet not alone the varied problems of to-day, but those which may arise in the future.

My fundamental concept of agriculture is one controlled by its own members, organized to fight its own economic battles and to determine its own destinies. Nor do I speak of organization in the narrow sense of traditional farm co-operatives or pools, but in the much wider sense of a sound marketing organization. It is not by these proposals intended to put the Government into the control of the business of agriculture, nor to subsidize the prices of farm products and pay the losses thereon either by the Federal Treasury or by a tax or fee on the farmer. We propose with Governmental assistance and an initial advance of capital to enable the agricultural industry to reach a stature of modern business operations by which the farmer will attain his independence and maintain his individuality.

And upon this whole question I should like to repeat from my acceptance speech that:

"The working out of agricultural relief constitutes the most important obligation of the next Administration. The object of our policies is to establish for our farmers an income equal to those of other occupations; for the farmer's wife the same comforts in her home as women in other groups; for the farm boys and girls the same opportunities in life as other boys and girls. So far as my own abilities may be of service, I dedicate them to help secure prosperity and contentment in that industry where I and my forefathers were born and nearly all my family still obtain their livelihood."

Conference of Farm Leaders.

In formulating recommendations for legislation to carry out the proposals of the party, I trust that we may have the full assistance of the leaders of agricultural thought. I am not insensible to the value of the study which sincere farm leaders have given to this question of farm legislation. They have all contributed to the realization that the problem must be solved. They will be invited into conference. Outstanding farmers such as Governor Lowden will be asked to join in the search for common ground upon which we can act.

The resignation of Herbert Hoover as Secretary of Commerce was formally accepted by President Coolidge on Aug. 21 at which time the President made known the appointment of William F. Whiting of Holyoke, Mass., as Mr. Hoover's successor. The latter's resignation was tendered early in July after his nomination for President at the Republican National Convention.

Governor Alfred E. Smith of New York, Democratic candidate for President of the United States, delivered his acceptance speech at Albany, N. Y., Aug. 22, and in discussing prohibition, declared that "we have not achieved temperance under the present system" (the Volstead Law) and "to-day disregard of the prohibition law is insidiously sapping respect for all law." "Certainly," he said, "no one foresaw when the Eighteenth amendment was ratified the conditions which exist to-day of bootlegging, corruption and open violation of the law in all parts of the country." The belief "that there should be submitted to the people the question of some change in the provisions of the Eighteenth Amendment" was expressed by the Governor, who added:

The people themselves should, after this eight years of trial, be permitted to say whether existing conditions should be rectified. I personally believe in an amendment to the Eighteenth Amendment which would give to each individual State itself, only after approval by a referendum popular vote of its people, the right wholly within its borders to import, manufacture or cause to be manufactured and sell alcoholic beverages, the sale to be made only by the State itself and not for consumption in any public place. We may well learn from the experience of other nations. Our Canadian neighbors have gone far in this manner to solve this problem by the method of sale made by the State itself and not by private individuals.

There is no question here of the return of the saloon. When I stated that the saloon "is and ought to be a defunct institution in this country" I meant it. I mean it to-day. I will never advocate nor approve any law which directly or indirectly permits the return of the saloon.

Preliminary to his views on the question as expressed above, Gov. Smith said in part:

The President of the United States has two constitutional duties with respect to prohibition. The first is embodied in his oath of office. . . . I shall to the very limit execute the pledge of our platform "to make an honest endeavor to enforce the Eighteenth Amendment and all other provisions of the Federal Constitution and all laws enacted pursuant thereto."

The President does not make the laws. He does his best to execute them, whether he likes them or not.

The second constitutional duty imposed upon the President is "to recommend to the Congress such measures as he shall judge necessary and expedient." Opinion upon prohibition cuts squarely across the two great political parties. There are thousands of so-called "wets and drys" in each. The platform of my party is silent upon any question of change in the law. I personally believe that there should be change, and I shall advise the Congress in accordance with my constitutional duty of whatever change I deem necessary or expedient. It will then be for the people and the representatives in the national and State legislatures to determine whether these changes shall be made.

In his speech Gov. Smith reiterated his previously announced intention, if elected President, to call a conference of "those best equipped on the particular subject" to work out a solution for the relief of agriculture. Gov. Smith said:

Co-operative, co-ordinated marketing and warehousing of surplus farm products are essential just as co-ordinated, co-operative control of the flow of capital was found necessary to the regulation of our country's finances. . . . The question for agriculture is complex. Any plan devised must also be co-ordinated with the other phases of our business institutions. Our platform declares for the development of co-operative marketing and an earnest endeavor to solve the problem of the distribution of the cost of dealing with crop surpluses over the marketed unit of the crop whose producers are benefited by such assistance. Only the mechanics remain to be devised. . . . In my administration of the government of my State whenever I was confronted with a problem of this character I called into conference those best equipped on the particular subject in hand. I shall follow that course with regard to agriculture. Farmers and farm leaders with such constructive aid as will come from sound economists and fair-minded leaders of finance and business must work out the detail. There are varying plans for the attainment of the end which is to be accomplished.

Such plans should be subjected at once to searching, able and fair-minded analysis, because the interests of all require that the solution shall be economically sound.

Gov. Smith also made the statement that "the tariff is ineffective on commodities of which there is exportable surplus without controlled sale of the surplus. Our platform points the way to make the tariff effective for crops of which we produce a surplus." He further said: "I shall ask Congress to carry out the tariff declaration of our platform." He likewise said:

The Democratic party does not, and under my leadership will not, advocate any sudden or drastic revolution in our economic system which would cause business upheaval and popular distress. . . . The Democratic party stands squarely for the maintenance of legitimate business and a high standard of wages for American labor. Both can be maintained and at the same time the tariff can be taken out of the realm of politics and treated on a strictly business basis.

I shall restore this [Tariff] Commission to the high level upon which President Wilson placed it, in order that, properly manned, it may produce the facts that will enable us to ascertain how we may increase the purchasing power of everybody's income or wages by the adjustment of those schedules which are now the result of log-rolling and which upon their face are extortionate and unnecessary.

The Governor's speech was delivered in the Assembly Chamber at Albany, a heavy rain having upset the plans for its delivery outside the capital.

Previous to his acceptance speech Governor Smith, in a talk with newspaper men in New York on Aug. 3, definitely indicated his position on the equalization fee, as provided for in the McNary-Haugen farm relief bill vetoed by President Coolidge. From the New York "Times" of Aug. 4 the following relative to the Governor's stand is taken:

Governor Smith's expression of his view on the equalization fee came in response to a question put to him during an interview in the Biltmore as to whether his statement of the day [the 2d] before could be construed as endorsing it.

"My views are summed up in an editorial in this morning's "World'," he said.

Picking up a clipping, he read:

"We take it that Governor Smith's declaration comes down to this:

"(a) That the Democratic Party is committed to the principle of controlling the sale of agricultural surpluses, the cost to be borne by the group benefited.

"(b) That the plan for applying this principle contained in the McNary-Haugen bill is not acceptable to him.

"(c) That he has no plan of his own for carrying out that principle.

"(d) That he promises after election to work out such a plan."

Adding that his own statement of Thursday spoke for itself, the Governor vouchsafed the interpretation, "I am committed to a system or principle that will provide for the orderly and proper marketing of agricultural surplus. I am not committed to the present detailed equalization fee."

This elaboration of the candidate's stand was taken by his party associates to be satisfactory to the farm interests and not unacceptable to business and industry. It is the Democratic belief that a method of paying for the cost of controlling and marketing the agricultural surplus can be devised along economic lines which will not too closely follow the much criticized features of the equalization fee. It was this item in the McNary-Haugen bill which brought harshest condemnation from President Coolidge.

Governor Smith's statement of the 2d was given out following a conference on that day with George N. Peek of Moline, Chairman of the Executive Committee of Twenty-two of the North Central States Agricultural Committee and an advocate of the McNary-Haugen measure. Mr. Peek likewise issued a statement after his conference with the Governor, in which he declared that he would support the Democratic nominee for President. Governor Smith's statement of Aug. 2 follows:

After my talk with Mr. Peek, I am more than ever satisfied that the Democratic national platform soundly declares the fundamental basis for relief of the appalling agricultural distress which not only threatens the farmer himself, but is destroying the farm market of $10,000,000,000 for the industries of the country. Control of the sale of agricultural surplus is recognized by our platform as an essential need, its cost to be imposed on the unit to be benefited. That principle is fixed by our platform on which I stand—only the detail of its accomplishment remains.

As I have said, I shall immediately, if I am elected, ask the best farm leaders and economists to work out this detail with me. I shall ask them to serve irrespective of locality or party. Republicans like Governor Lowden, as well as Democrats who have studied this problem, will be called upon by me for this patriotic service. I shall discuss the question at length in my acceptance speech.

THE COURSE OF TRADE AND BUSINESS.

There was no essential change in underlying trade conditions during August. The iron and steel industry remained extremely active, and the seasonal recession customary to the summer was much less pronounced than usual, which contrasted sharply with the situation in the summer of 1927 when business sharply declined, the decline eventuating in a veritable slump as the end of the year approached. The "Iron Age" in its issue of Aug. 30 stated that the output of finished steel products remained at a high level. Ingot production at Chicago was now 80% of capacity, compared with 75% the previous week. In the Greater Pittsburgh area, the rate was between 80% and 85%. The average of the various U. S. Steel Corporation subsidiaries at 75% had shown only slight variation for several weeks. Most important of all, perhaps, the price situation improved, the "Age" noting that the upward trend of prices in the iron and steel markets had been given a further impetus by the growing strength of primary materials. Advances in pig iron had been accompanied by heavy sales, and scrap prices continued to rise. Business in finished steel was mainly in specifications against contracts, and, notwithstanding scattered concessions on large current orders, mills appeared determined to establish the price increases announced for the fourth quarter. Foundry pig iron had gone up 75c. a ton at Birmingham, 50c. a ton at Chicago and St. Louis, and 50c. to $1 at Buffalo. Furnaces were accumulating comfortable back logs, some of them being booked for the rest of the year. Heavy steel scrap at Pittsburgh had again advanced 50c. a ton, making a total gain of $2 since the low point was reached in July. The "Age" made the composite price of pig iron Aug. 28 $17.34 a gross ton, as against $17.04 a month earlier, and the composite price of finished steel 2.348c. a pound against 2.319c. a month earlier. Improving tendencies were also noted in the case of the non-ferrous or minor metals. The copper market remained in splendid shape, with an active demand and a strong statistical position. Lake copper at New York continued unchanged at 14.75c. per pound and electrolytic copper at 14.50c. Lead prices in New York were advanced from 6.20c. to 6.40c. Tin at New York, after the customary erratic fluctuations, was 48.25c. Aug. 31 against 47.75c. on July 31. Oil and gasoline prices continued their improving tendency where any changes at all appeared, which changes, however, were not numerous. Oil production in Howard and Glassrock Counties, Texas, was limited to 15,000 barrels daily for a month beginning Aug. 15 and to 25,000 daily for the following five months under order issued by Railroad Commission. At a meeting of operators of Seminole and St. Louis-Pearson areas the shut-down agreement in Maud and Mission pools was extended 30 days from Aug. 15 when the current agreement would have expired. There were efforts also to restrict oil production in other large fields, particularly in Oklahoma.

The cotton goods trade, as previously, remained in extremely unsatisfactory shape, notwithstanding the extensive curtailment of production. The U. S. Census report for July, issued on Aug. 15, showed that the cotton consumed in the United States during the month had been only 438,743 bales of lint and 62,921 bales of linters, compared with 569,765 bales of lint and 69,872 bales of linters in July 1927, and 510,565 bales of lint and 63,587 bales of linters in June 1928. The price of raw cotton evinced a downward tendency during August and that of course did not tend to augment the demand for goods. As against 20.45c. July 31 the spot price of cotton in New York declined to 19.65c. Aug. 7. On Aug. 8, however, the trade got a surprise in the estimate of the probable size of the growing crop by the U. S. Department of Agriculture. The Bureau put the crop at only 14,291,000 bales, whereas general expectation had been of an estimate of 14,800,000 bales, or still larger. The result was a rise of 80 to 140 points in the case of future contracts, the latter on October futures; from the early low before the report was received the rise was 100 to 165 points, the latter on October. There was heavy covering of shorts, both for home and foreign account. Spot cotton was marked up from 19.65c. Aug. 7 to 20.40c. Aug. 8. The next day, however, Aug. 9, there came a swift and almost dramatic change of front in the world's cotton markets, not excepting New York. They broke wide open; the fall was 80 to 140 points. On second thought many doubted that the U. S. crop of 1928 would prove as small as 14,291,000 bales. The spot price Aug. 9 was reduced from 20.40c. to 18.95c. On Aug. 10 there was a recovery to 19.30c., with a renewed drop to 18.90c. Aug. 11 and to 18.55c. Aug. 13. This last proved the low point of the month. Thereafter the tendency was upward, though the fluctuations were wide and variable from day to day. Weather conditions proved much less favorable. On Aug. 28 the spot price was back to 19.30c. and on Aug. 31 it was 19.05c., as against 20.45c. on July 31. The latter part of the month pre-holiday quietness prevailed throughout nearly all divisions of the textile markets. This applies to the silk trade, the same as the other. Raw silk prices again tended downward and Japanese crack double extra (20-22 deniers) was quoted Aug. 31 at $4.75@$4.80, against $5.00@$5.10 July 31, $4.90@$4.95 June 30, $5.05@$5.10 May 31, $5.30@$5.35 on both April 30 and March 31, $5.35@$5.40 Feb. 29, $5.15@$5.20 Jan. 31 and $5.05@$5.10 on Dec. 31. The crude rubber market tended somewhat lower again and ribbed smoked sheets for spot delivery were quoted at 18¾@18⅞c. Aug. 31, against 19⅛@19¼c. July 31; 18¾@19c. June 30; 19½@19¾c. May 31; 17@17½c. April 30; 27@27½c. March 31, and 14¼@14½c. at the beginning of the year. There was a report at one time that the so-called bankers' rubber pool—the National Reserve for Crude Rubber—had liquidated, but this was denied, according to the daily papers of Aug. 23, by Charles B. Seger, Chairman of the United States Rubber Co. Mr. Seger said it was a fact that the shrinkage in the value of the crude rubber held by the pool had been written down and apportioned to the various participants, but its activities would continue.

Grain prices dropped still lower, though with some recovery the latter part of the month. The decline followed almost entirely as the result of the favorable crop report issued by the Department of Agriculture on Aug. 9. This report placed the probable production of winter wheat at 578,599,000 bushels, which compared with the Department's estimate of 543,782,000 bushels in July, 512,252,000 bushels in June, 479,086,000 bushels in June and with 553,288,000 bushels actually harvested in 1927. At the same time a marvelous improvement in the outlook for spring wheat was reported, so that a spring wheat crop of 228,350,000 bushels

was now forecast, as against only 182,623,000 bushels the promise on July 1. The actual harvest in 1927 was 243,152,000 bushels. In addition, there was marvellous improvement also in the prospect for durum wheat, the estimated production of which was now put at 84,343,000 bushels, compared with 73,532,000 bushels forecast in July and 76,155,000 bushels harvested in 1927. Altogether, the combined production of wheat of all kinds was now put at 892,000,000 bushels, against only 809,000,000 bushels on July 1 and 875,000,000 bushels harvested in 1927. The probable production of corn was put at 3,029,561,000 bushels, which compared with the department's estimate of 2,736,000 bushels the previous month, 2,773,708,000 bushels harvested in 1927, and a five-year average production of 2,775,634,000 bushels. The condition of corn on Aug. 1 was 83.3%, comparing with 78.1% July 1, 71.2% Aug. 1 1927 and 79.5%, the ten-year average. At the same time the forecast as to the size of the grain crop was raised to 1,442,000,000 bushels from 1,320,000,000 bushels the previous month. The September option for wheat in Chicago dropped from $1.20¼ Aug. 2 to $1.07¼ Aug. 22 and closed Aug. 31 at $1.10⅜. The December wheat option at Chicago fell from $1.24½ Aug. 1 to $1.12½ Aug. 10, which figure was also again reached Aug. 22 after a high of $1.19¼ Aug. 14. The close Aug. 31 was $1.15⅞. The September option for corn in Chicago touched $1.01⅞ Aug. 2 and then tumbled to 84½c. Aug. 13, and after a recovery to 98⅜c. Aug. 29, closed Aug. 31 at 94⅛c. The December option for corn in Chicago, after declining from 79c. Aug. 2 to 71½ Aug. 10, recovered to 76½c. Aug. 29 and closed Aug. 31 at 74⅜c. September oats in Chicago declined from 39¼c. Aug. 1 to 35⅝ Aug. 21, then moved upward to 39½c. Aug. 28 and closed Aug. 31 at 38½c. December oats in Chicago from 42⅜c. Aug. 2 declined to 38½c. Aug. 22, then got up to 41¾c. Aug. 28 and closed Aug. 31 at 40⅝c. Coffee prices after some advance the early part of the month moved lower again the latter part. Number 7 Rio was quoted at one time at 17½c., but on Aug. 31 was back to 17c., as against 17@17¼c. July 31, 15¾c. June 30, 15½c. May 31, 15⅛c. April 30, 15½@15¾c. March 31, 17c. Feb. 29, 14⅞c. Jan. 31, and 14½c. on Dec. 31 1927. The sugar market developed more strength, especially in the case of refined sugar. Cuban raw sugar also improved, but did not maintain the whole of the improvement. From 2¼c. Aug. 1 the price rose to 2 7/16@2½c. Aug. 17, but fell back to 2 11/32@2⅜c. Aug. 28, with the price Aug. 31 2⅜c. The wholesale price of refined sugar at the leading refineries of this city after ranging as low as 5.40@5.45c. Aug. 1, reached 5.65c., the uniform quotation at all refineries on Aug. 17. At the close of July the range was 5.55@5.60c. Associated Press advices Aug. 23 announced that the Cuban Government would permit an unrestricted sugar crop for 1929 if producers so desired. On Aug. 24 the evening edition of the Wall Street Journal in a dispatch from Havana explained the action as follows:

> Commissions representing American and Cuban sugar interests interviewed President Machado separately on Thursday. Their petitions asked that there be no restriction on the next sugar crop and that the Cuban Sugar Export Corp., in charge of sales of sugar to other countries than the United States be dissolved.
>
> Representatives of the producers stated after the interview that President Machado had declared there would be no restriction of the next crop unless the majority of planters ask for it. There is no indication, however, that the Export Corp. will be dissolved.
>
> Practically all the important American producing companies signed the petition, including companies that had formerly favored both crop restriction and the Export Corp. Among the companies signing the petition were: Cuba Cane, Punta Alegre, American Sugar, United Fruit, Cuban Dominican Sugar, Cuban American, the National City Bank interests and Antilla Sugar.

In the soft coal regions, there was a return of many miners to work, as the result of new wage agreements, following the abandonment of the Jacksonville scale. United Press advices from Columbus (Aug. 24) stated that between 3,000 and 3,500 miners were expected to return to work in 14 mines Sept. 1 as a result of the agreement between the Central Ohio Coal Operators' Association and the union mine workers calling for a $5 wage scale and 70 cents per ton for cutting and loading. The agreement, which will be in effect until March 1 1930 was reached late Aug. 23 after more than a week of conferences between operators and union officials. A competitive clause, which would have permitted the operators to compete with prices paid in non-union fields, was not included. The competitive clause was opposed by union representatives. Although only 14 mines are affected by the agreement—which will bring to an end 17 months of idleness—hope was expressed by both union officials and operators that the scale would be extended to other mines. Under the new pact a joint committee of three miners and three operators was created to study conditions existing in Ohio and adjoining states with relation to a joint conference of miners and operators before March 1 1930, when the new agreement ends. The joint committee is scheduled to meet in November and study conditions until the second week in February. On Aug. 31 United Press advices from Chicago stated that Illinois coal operators and miners were reported to have reached an agreement after six week's negotiations for a new wage scale contract. The new scale was said to call for $6.37 for shift men and $5.85 for top workers. The Jacksonville agreement, previously set aside, provided for a scale of $7.50 a day. A new wage pact would provide employment for some 20,000 men through opening of idle mines, the operators estimated. Kansas City Associated Press advices Aug. 24 stated that the 1917 wage scale had been retained as the basis of a new wage contract agreed upon by Missouri mine workers and employers after a conference which lasted several days. Under the agreement the miners were to receive $5 a day wages for day work. The contract was to become effective on Sept. 1 and to expire on April 1 1931. The action, it was stated, applies only to members of the Southwestern Association, embracing between 8,000 to 10,000 miners in Missouri, Oklahoma, Kansas, Arkansas and Texas fields.

NEW SECURITY ISSUES AND DIVIDENDS IN AUGUST.

During the month of August there were no new foreign security issues offered in this country. The nearest approach to foreign financing was the announcement of a private banking credit extended to the Bank of Spain by a syndicate headed by J. P. Morgan & Co. The size of credit is reported to be $25,000,000 and will be utilized to regulate peseta exchange.

New domestic financing continued very light. The largest offering was an issue of $30,000,000 Middle West Utilities Co. 5½% serial gold notes. Other issues worthy of note included an offering of $20,000,000 Commonwealth Subsidiary Corp. 5½% gold debentures and a $10,000,000 issue of Brooklyn Manhattan Transit Corp. 1-year secured 6% gold notes. The Pennsylvania RR. offered $17,500,000 of com. stock to its officers and employees. The financing classified as to the nature of business and size of issue is shown below, the table including only issues for $5,000,000 and above:

RAILROAD FINANCING.

$17,500,000 **Pennsylvania RR.** common stock offered at par ($50) to officers and employees of the company. The I.-S. C. Commission authorized the issue on July 31 last.

PUBLIC UTILITY FINANCING.

$30,000,000 **Middle West Utilities Co.** 5½% serial gold notes due from 1929 to 1931, inclusive, at prices to yield from 5¼% to 6% depending on maturities by a syndicate headed by Halsey, Stuart & Co., Inc.

10,000,000 **Brooklyn Manhattan Transit Corp.** 1-year secured 6% gold notes due Aug. 15 1929 at par and interest by Chase Securities Corp., J. & W. Seligman & Co., and Hayden, Stone & Co.

6,000,000 **Midland Utilities Co.** gold debentures 6%, series A, due 1938 at 99½ and interest to yield over 6.05% by Halsey, Stuart & Co., Inc.

5,000,000 **Public Service Co. of Oklahoma** 1st mtge. 5% gold bonds, series D, due 1957 at 96 and interest yielding 5.27% by Halsey, Stuart & Co., Inc.; A. B. Leach & Co., Inc. and Hill, Joiner & Co., Inc.

50,000 shares of **Cities Service Power & Light Co.** $5 div. no par value cumulative preferred stock placed privately by Henry L. Doherty & Co.

INDUSTRIAL AND MISCELLANEOUS.

$20,000,000 **Commonwealth Subsidiary Corp.** 5½% gold debentures, series A, due in 1948 at 97 and interest to yield 5¾% by Halsey, Stuart & Co., Inc.

200,000 shares of $3.50 cumul. conv. pref. stock of no par value and 200,000 shares of common stock of no par value of the **Consolidated Automatic Merchandising Corp.** in units of 1 share of pref. and 1 share of common at $55 per unit by F. J. Lisman & Co.

Changes in dividend declarations during August were on about the same scale as those for the preceding month. Perhaps the most important was the declaration of the second one dollar dividend on the common stock of the New York New Haven & Hartford RR. The Cuba Northern Rys. declared an initial dividend of $4.40 per share on its common stock. Pennsylvania-Dixie Cement Corp. omitted the dividend on its common stock. The more important changes for the month are given in the following table.

American Encaustic Tiling Co., Ltd.—Quar. div. on com. increased from 60 cents to 75 cents per share.

American Financing Holding Corp.—Initial quar. div. of 43¾ cents on the class A cum. partic. no par value common stock.

American Lithographic Co.—Extra div. of 40 cents per sh. in addition to the regular quar. div. of 40 cents per sh.

American Potash & Chemical Corp.—Initial div. of 50 cents per sh. on the com. stk. This payment is for the six months ended Sept. 30 next.

American & Scottish Investment Co.—Initial quar. div. of 30 cents per sh. on com.

American Wringer Co.—7% div. on the pref. stk. on account of accumulations.

Barker Bros. Corp.—Initial quar. div. of 50 cents per sh. on com.

Bohn Aluminum & Brass Corp.—Quar. div. on com. increased from 37½ cents to 75 cents per sh.

Brach & Sons (E. J.).—Quar. div. on com. increased from 50 cents per sh. to 70 cents per sh.

Brown Mfg. Co. (John W.).—Extra div. of 12½ cents per sh. in addition to the regular quar. div. of 25 cents per sh.

Canada Vinegars, Ltd.—Initial quar. div. of 40 cents per sh. on com.

City Mfg. Co. of New Bedford.—Omits quar. div. on com.

Consolidated Gas Utilities Co.—Initial quar. div. of 33 cents per sh. on the com. stk.

Cuba Northern Rys.—Initial div. of $4.40 per sh. on com. stk.

Dominion Oil Co., Ltd.—Initial div. of 25 cents per sh. on class A stk.

Electrographic Corp.—Initial quar. div. of 50 cents per sh. on com.

Follansbee Bros., Co.—Quar. div. on com. increased from 37½ cents to 50 cents per sh.

Gelsenkirchen Mining Corp., Germany.—8% div. for the fiscal year ended Mar. 31 1928.

Gurd & Co., Ltd. (Charles) Montreal.—Quar. div. on com. increased from 50 cents per sh. to 75 cents per sh.

Hawaiian Commercial & Sugar Co., Ltd.—Extra of 25 cents per sh. in addition to the regular monthly div. of 25 cents per sh.

Imperial Tobacco Co. of Canada., Ltd.—20% stk. div.

International Nickel Co., Inc.—Quar. div. increased from 50 cents to 75 cents per sh.

Keeley Silver Mines, Ltd.—Semi-annual div. on com. stk. omitted.

Kennecott Copper Corp.—Quar. div. on com. increased from $1.25 to $1.50 per sh.

Kilburn Mills.—Quar. div. on com. reduced from $1.50 per sh. to $1 per sh.

Lyall & Sons Construction Co.—Resumes quar. divs. on com. with payment of 75 cents per sh. No divs. have been paid on the com. stk. since 1922.

Merrimack Mfg. Co.—Quar. div. on com. increased from 2½% to 3%.

Miller & Sons, Inc. (I.).—Initial quar. div. of 50 cents per sh. on com.

Motor Wheel Corp.—25% stk. div. as well as an extra cash div. of 25 cents per sh.

National Transit Co.—Extra div. of 25 cents per sh. as well as the regular quar. div. on com.

Newberry Co. (J. J.).—Initial quar. div. of 30 cents per sh. on com.

New York New Haven & Hartford RR.—A div. of $1 per sh. on com. On April 10 last a special div. of $1 per sh. was paid.

Nunnally Co.—Quar. div. on com. omitted.

Pennsylvania-Dixie Cement Corp.—Div. on com. stk. omitted.

Pilgram Mills, Fall River.—Quar. div. on com. reduced from $2 to $1 per sh.

Pillsbury Flour Mills, Inc.—Extra div. of 50 cents per sh. plus the regular quar. div. of 40 cents per sh.

Powdrell & Alexander, Inc.—Quar. div. on com. reduced from 87½ cents per sh. to 50 cents per sh.

Reo Motor Car Co.—Extra div. of 30 cents per sh. in addition to regular quar. div. of 20 cents per sh.

South Penn Oil Co.—Extra div. of 25 cents per sh. in addition to regular quar. div. of 50 cents per sh.

Southern Weaving Co., Greenville, S. C.—50% stk. div.

Spalding & Bros. (A. G.).—Extra div. of 1% in addition to the regular quar. div. of 1¼% on com. stk.

Standard Oil Co. of Nebraska.—Extra of 25 cents per sh. in addition to the regular quar. div. of 63 cents per sh.

Super Maid Corp.—Initial quar. div. of 75 cents per sh. on com. stk.

Taunton-New Bedford Copper Co.—Extra div. of $25 per sh. in addition to regular div. of $2 per sh.

Tennessee Copper & Chemical Corp.—Quar. div. on com. increased from 12½ cents to 25 cents per sh.

Texon Oil & Land Co.—10% div. on com.

United Cigar Stores Co. of America.—Quar. cash div. on com. increased from 20 cents to 25 cents per sh.

Vulcan Detinning Co.—Regular div. on 7% pref. stk. plus 1% on account of accumulations.

Waitt & Bond, Inc.—Quar. div. on the class B stk. increased 27½ cents to 30 cents per sh.

Wamsutta Mills.—Divs. on com. stk. omitted.

THE STOCK MARKET DURING AUGUST 1928.

Speculation on the Stock Exchange completely revived during August, and in a very active and aggressive way, too. At the beginning of the month there was still some irregularity in the course of prices, influenced from day to day by the course of money rates, but the latter part of the month prices swept upward almost without interruption and the market, which had been steadily gaining tone and strength, developed positive buoyancy, so much so that even high money rates no longer proved a deterrent to the rising current of bull speculation, some of the largest advances being recorded day after day when call money rates on the Stock Exchange were quoted as high as 7@7½%. As the speculation gained headway, the volume of business steadily enlarged and from transactions running in the neighborhood of 2,000,000 shares a day there was first an increase to over 3,000,000 shares a day and finally on Aug. 31 the dealings ran in excess of 4,000,000 shares a day, aggregating on the day mentioned 4,234,600 shares. For the entire month of August the transactions foot up 67,191,023 shares, which compares with 39,197,238 shares in July, but with 84,973,869 shares in March, the month when a high record total was established. In August, 1927, there was also considerable activity, but the sales then totaled only 51,205,812 shares. In the Curb Market, also, dealings increased, the sales for the month totaling 10,130,006 shares, as against 9,387,971 shares in July, but comparing with the record total of 24,346,931 shares in May. In August 1927, the sales on the Curb were only 7,500,346 shares.

As already stated, the market at the beginning of the month still showed considerable irergularity, influenced by the course of money rates. On the opening day of the month (Aug. 1) with call loans renewal at 7½% and a decline in the general rate to 7% (the high for the previous day having been 8%), stocks were strong with few exceptions. On Aug. 2, on the other hand, prices took a downward turn, call money remaining at 7% throughout the day, but knowledge that a meeting was being held at the Clearing House in this city with a view to dealing with the matter of the phenomenal growth in brokers' loans for outside account had a distinctly unsettling effect. On Aug. 3 the renewed large expansion in brokers' loans, together with news of a further meeting of the banks at the New York Clearing House for the purpose of completing the action of the day before, tended further to depress the market at the opening, but later, when it appeared that the call loan rate on the Stock Exchange was down to 6%, a brisk rally occurred. Thereafter for a time the market was weak and strong by turns, and dominated more or less by the course of money rates. But it was not easy to bring about extensive or prolonged declines in values and there was much going to show that pool operations in favored stocks were being resumed. It became more and more evident that big financial interests had taken over the large lines of stocks thrown over by the outside public during the great break in May and June and that these financial interests were inclined to bide their time before inaugurating a new movement for higher prices, though obviously in favor of such a movement when the opportunity became ripe. And evidently the opportunity arrived sooner than had been expected. On Monday, Aug. 6, the market showed very considerable strength and prices advanced all around, the call loan rate remaining at 6%. On Aug. 7, with a rise in the call loan rate to 7%, heavy selling of stocks occurred and a considerable part of the advance of the previous day was lost. With the development of further anxiety regarding the money situation, additional declines occurred, though the call loan rate did not get above 7% and renewals were at 6½%. On Thursday, Aug. 9, though the monetary situation was still the uppermost topic some recovery in prices took place. On Friday, Aug. 10, with brokers' loans showing no contraction, but rather a further small increase, and with call loans advancing to 8%, the market became confused and later in the day weak. On Aug. 13, with the call loan renewal charge at 7½% the entire day, the market showed more or less irregularity and on Aug. 14, with the renewal rate still 7½%, though in the afternoon some new loans were negotiated at 6½%, the market was weak all around, with large and general declines in prices

On Aug. 15, however, the entire complexion of speculation changed and the market now swung upward with great rapidity; the renewal charge for standing call loans was marked down to 7% and as the day advanced there was a drop in the rate on new loans to 5½%. On Aug. 16, the renewal charge was lowered to 6% and new loans were made in the afternoon at 4½%. The stock market now became positively buoyant. On Friday Aug. 17, the call loan renewal charge was marked down to 5%, and the tone of the stock market was further strengthened by the news that brokers' loans during the week had been reduced in amount of over $50,000,000. As the result the speculation for higher prices gained new headway, through a sudden an unexpected spurt in the call money rate in the afternoon to 7% had a dampening effect and induced realizing sales under which a part of the early advances were lost. The rest of the month the market broadly and steadily advanced and developed positive buoyancy, little attention now being paid to the course of money rates, even though the call loan charge advanced, as already stated, to 7%, to 7½% and even on at least one day to 8%. Prices advanced by leaps and bounds and with a rapidity that was strongly suggestive of the will and unrestrained speculation of the early part of the year.

The bull speculation was not confined to any special stocks or groups of stocks, but was common to the whole market, though the high-priced specialties, so long favorites, enjoyed the largest advances, the same as on previous similar occasions, and the copper stocks as a group moved up more readily and more generally than any other district group. Scores of stocks established new high records for the year, which affords a better idea of the magnitude and extent of the rise than anything else, bearing in mind the great downward plunge in values which occurred during the period of great demoralization in May and June. In the railroad list among the stocks so distinguished may be mentioned Rock Island which rose from 115⅛ Aug. 11 to 126 Aug. 31; St. Louis-Southwestern which rose from 85 Aug. 3 to 111⅜ Aug. 31; Texas & Pacific which rose from 168 Aug. 13 to 194 Aug. 29; Missouri Pacific which rose from 60⅛ Aug. 10 to 74¾ Aug. 31 and the preferred which rose from 113⅛ to 124⅜; and Milwaukee & St. Paul pref. which rose from 45½ Aug. 11 to 54⅞ Aug. 31. Even where no new high records were established for the year very substantial advances occurred in most instances, as in the case of New York Central which rose from 161⅛ Aug. 3 to 177 Aug. 31. In the industrial list, the public utilities and the specialties of one kind or another, instances of new high records for the year are extremely numerous. Thus Allied Chemical & Dye spurted up from 174 Aug. 3 to 205 Aug. 31; Allis Chalmers from 124 Aug. 9 to 138¼ Aug. 31; American Can from 91¼ Aug. 2 to 112¼ Aug. 31; American Linseed from 108 Aug. 2 to 123⅝ Aug. 31; American Radiator from 144⅝ Aug. 2 to 160½ Aug. 31; American Smelting & Refining from 196⅜ Aug. 11 to 252¼ Aug. 30; Atlantic Refining from 152 Aug. 1 to 171½ Aug. 25; Chrysler from 76¾ Aug. 2 to 102½ Aug. 31; Stewart-Warner from 89½ Aug. 15 to 102⅜ Aug. 29; Union Carbide & Carbon from 156½ Aug. 14 to 172½ Aug. 31; Montgomery Ward & Co. from 183½ Aug. 3 to 224⅞ Aug. 31; Sears-Roebuck & Co. from 120¼ Aug. 1 to 152⅞ Aug. 27; International Harvester from 265¾ Aug. 1 to 296 Aug. 31; International Nickel from 95¼ Aug. 14 to 125 Aug. 29; Hupp Motor Car from 56⅜ Aug. 2 to 69½ Aug. 31; Continental Can from 103¼ Aug. 3 to 125 Aug. 31; Famous Players-Lasky from 130½ Aug. 9 to 143½ Aug. 29; Loose-Wiles Biscuit from 46½ Aug. 1 to 81¼ Aug. 31, and U. S. Industrial Alcohol from 109½ Aug. 1 to 124⅞ Aug. 31. Even U. S. Steel on its good income return for the half year ended June 30 and the continued activity of the steel trade, made a new high record for the year in an advance from 139¼ Aug. 2 to 155⅝ Aug. 29. All the copper stocks reached new high peaks for the year, Anaconda Copper selling up from 64⅛ Aug. 14 to 77 Aug. 31; Kennecott Copper from 93⅝ Aug. 9 to 99½ Aug. 30; Calumet & Hecla from 22⅜ Aug. 6 to 29¾ Aug. 30; Cerro de Pasco from 74¼ Aug. 1 to 82⅞ Aug. 31; Chile Copper from 42¾ Aug. 13 to 50½ Aug. 31; Granby

Cons. Mines from 52½ Aug. 10 to 60½ Aug. 30. Advances were no less pronounced in the case of stocks which did not attain new high figures for the year. General Motors was weak and irregular the early part of the month on rumors, which never found any confirmation, that Mr. Raskob was disposing of his holdings; nevertheless the stock after selling down from 192 Aug. 1 to 176½ Aug. 14, advanced to 203¼ Aug. 31; General Electric advanced from 147 Aug. 11 to 168⅞ Aug. 29; Amer. Tel. & Tel. from 173⅝ Aug. 8 to 182½ Aug. 31, and International Tel. & Tel. from 168¼ Aug. 15 to 187⅜ Aug. 30.

Bond prices continued to rule low, though with some slight recovery in many issues the latter part of the month. In the municipal bond market great difficulty was experienced in disposing of new issues at prices satisfactory to the municipalities, and many of these latter had to defer new emissions for the time being. Not a few new issues failed of sale either because the bids received were too low and hence were rejected or because no bids at all were submitted. It deserves to be pointed out that owing to the tension in the money market not a few municipal issues It happens that in not a few instances short term maturities now sell on a higher income yield than the longer maturities, which is the reverse of the condition previously existing As a few illustrations we may mention that Nassau County (N. Y.) 4¼s have been publicly offered on a 4.20 basis for 1930-1932 maturities, 4.15 for 1933-1935 maturities and 4.10 for 1936-1946 maturities; Rensalear County (N. Y.) 4¼s have been offered on a 4.25 basis for 1929-1932 maturities, on a 4.20 basis for 1933-1936 and on a 4.15 basis for 1937-1958 maturities As another illustration Anderson County (S. C.) 4¾s have been offered on a 4.65 basis for 1930-1933 maturities; on a 4.60 basis for 1934-1937 maturities, and on a 4.55 basis for 1938-1943 maturities. The change, it should be understood, is by no means universal as yet and in most instances the situation remains as before the shorter maturities commanding the lowest rate of return and the longer maturities the higher rate.

THE MONEY MARKET DURING AUGUST 1928.

The tension in the money market remained unrelieved during this month. The call loan rate on the Stock Exchange took an ocasional dip to 6% and on one day (Aug. 16) got as low as 4½%, but most of the month ruled as high as 7@7½% and even 8%. As underlying conditions remained unchanged, the charge for time loans actually further stiffened, and the same is true of the rates for commercial paper. Brokers' loans continued to rule high. As noted further below, moderate decreases in the total were noted in two of the weeks, but the latter part of the month, under the revival of Stock Exchange speculation, the amount again increased. Reference is made further above to the action of the New York Clearing House banks in undertaking to check the constant growth in such of these loans as are made "for account of others," meaning loans which the banks make for account of their large depositors, corporate and individual, as distinguished from the loans which they make for their own account and those which they make "for account of out-of-town banks." The steps taken to that end are related in what we have said above. Allusion has also already been made to the effort of one of the Clearing Houses to get the Federal Reserve Board to adopt a policy by which a preferential rate of discount would be allowed to member banks on borrowings at the Reserve institution where the collateral consisted of United States Government obligations (the rate might be only 3¼% as against the prevailing rate of 5% which would be continued in the case of borrowing on the security of commercial paper)—and the failure of the effort—Secretary of the Treasury Mellon, speaking for the Federal Reserve Board, having turned down the proposition in withering language.

With the crop moving season approaching, in fact, actually at hand, when the demands on that account have to be met and no way available for reducing the enormous aggregate of borrowing on speculative account, as represented by brokers' loans, continued tension in the money market, with the resulting high interest rates, followed as a matter of course. These high rates served as a magnet for drawing supplies of funds from all quarters—not alone from abroad, but from the interior of the country and the call loan rates experienced occasional drops as a temporary excess of supplies appeared, but that these were mere transient developments and did not indicate any change in underlying conditions was made plain by the continued stiffness in the charge for time loans and for mercantile paper and for bankers' acceptances. There was extensive calling of loans from day to day nearly all through the month and doubtless this resulted in part at least from the fact that such large amount of the loaning by the banks is done for account of their customers, rather than for themselves. These customers are more reluctant than the banks to let a loan stand at unchanged rates when a seeming opportunity exists for obtaining a higher rate, and this, it is hardly open to question, furnishes a clue to the extensive calling in of outstanding demand loans. The same circumstance no doubt also explains in part the ocasional sharp decline in rates, since when a loan is called the proceeds necessarily have to be reloaned and when the lender has miscalculated his chances), the money has to be put up at the best rates obtainable, and "best" rates here means rates lower than the prevailing figures.

We have already indicated that the charge for call loan renewals remained high, most of the time at 7% or 7½%, and that the occasional deviations from that figure possessed little significance. Dealing with the details the renewal charge Aug. 1 was 7½%; on Aug. 2 and Aug. 3, 7%; on Aug. 6 and Aug 7, 6%; on Aug. 8, 6½%; on Aug. 9 and Aug. 10, 7%; on Aug. 13 and Aug. 14, 7½%; on Aug. 15, 7%; on Aug. 16, 6%; on Aug. 17, 5%; on Aug. 20, 6%; on Aug. 21 to Aug. 27 inclusive, 7%; and on Aug. 28 to Aug. 31, inclusive, 7½%. Thus the rate at the end of the month was the same as at the beginning. And that is virtually true also of the rates on new loans, the range on Aug. 1 having been 7@7½%, while on Aug. 31 the charge was at the single figure of 7½%. For time loans the rate was 6% for all dates of maturity until Aug. 9, when there was an advance to 6¼%, followed on Aug. 10 by a further advance to 6½%. And this rate may be said to have continued unchanged until the end of the month, this being the quotation for all maturities from 30 days to 6 months. The only exceptions were that on Aug. 16 the quotation was 6¼@6½%, and again on Aug. 20, Aug. 21 and Aug. 22, the range was 6¼@6½%. After this latter date the rate remained uniformly at the single figure of 6½%. Rates for commercial paper also further advanced and the quotations at the end of the month on names of choice character maturing in 4 to 6 months was 5½@5¾%, with a few prime names of short maturity going at 5¼%. For names less well-known the quotation was 5¾%. The rate for New England mill paper was 5½@5¾%.

Rates for banks' and bankers' acceptances were maintained at the high figures reached the previous month and for a time on certain maturities, actually ruled a fraction higher. Thus on Aug. 13 the American Acceptance Council raised its rates for 150 and 180 day bills ⅛ of 1%, and on Aug. 14 likewise raised its rate ⅛% on 120 day bills, though in this latter case the rate was marked down again ⅛ on Aug. 17. On Aug. 31 the rate for 150 and 180 day bills was also marked down again ⅛ of 1%. The result was that quotations Aug. 31 were precisely the same as on Aug. 1, the posted rates of the American Acceptance Council for prime bankers acceptances eligible for purchase by the Federal Reserve Banks being 4¾% bid and 4⅝% asked for bills running 30 days and also for bills running 60 and 90 days, 4⅞% bid and 4¾% asked for 120 days and 5⅛% bid and 5% asked for 150 and 180 days.

For call loans against bankers' acceptances the posted rate of the American Acceptance Council was raised on Aug. 1 from 5½% to 6½%, and on Aug. 2 to 7%; then was reduced to 6½% Aug. 3 and to 5% Aug. 6, with a new advance to 5½% on Aug. 7 and Aug. 8; 6% on Aug. 9 and Aug. 10, and 6½% on Aug. 13 and Aug. 14, with a reduction to 5½% Aug. 15, to 4¾% Aug. 16, and to 4½% Aug. 17; then advanced to 5½% Aug. 20 followed by a further advance to 6% Aug. 21 and Aug. 22, and to 6½% Aug. 23, which latter figure then continued for the rest of the month.

There were no changes during the month in the rediscount rates of any of the Federal Reserve Banks. In our review of the previous month it was noted that the Federal Reserve Bank of Cleveland had on July 31 been authorized to increase its rate from 4½% to 5%, the change becoming effective on the morning of Aug. 1. No other Reserve institution announced any change during the month of August. The result was that the prevailing charge at eight of the twelve Reserve institutions was 5%, while the other four still retained the 4½% rate. These four are all banks serving communities largely agricultural, namely, the Federal Reserve Bank of Minneapolis, the Federal Reserve Bank of Kansas City, the Federal Reserve Bank of Dallas, and the Federal Reserve Bank of San Francisco.

THE RETURNS OF THE FEDERAL RESERVE AND MEMBER BANKS—BROKERS' LOANS.

The effort to reduce brokers' loans did not succeed. There was much discussion as to why this class of borrowing (on the security of stock and bond collateral) should continue so heavy, after the tremendous liquidation on the Stock Exchange in May and June, and with the charge for call loan accommodation remaining so high. The explanation probably is that big financial interests took over the holdings of the outside public when the latter were selling so furiously, ready to accept any price they could get for their holdings, and that these financial interests are now borrowing on their holdings the same as the outside public had been doing. There were suggestions during July that the loans represented in part borrowing by banking and investment houses who had brought out new loans and been unable to find a market for them because of the precipitate decline in bond prices which occurred during May and June, but whatever force there may have been in that contention during the months referred to it had little application to the course of brokers' loans during August, since through sharp reductions in prices, to accord with the new level of bond values, these syndicate holdings have been pretty well cleaned up. The latter part of August, of course, there was a great revival of Stock Exchange speculation, and this afforded a new occasion for borrowing on that account. At all events, these brokers' loans were maintained at high figures, as already said. It may be recalled that in our narrative for the month of July we showed that the aggregate of these loans to brokers and dealers on the security of stock and bond collateral by the 45 reporting member banks in New York City after declining from $4,307,076,000 July 3 to $4,183,919,000 July 25, had increased again to $4,259,396,000 on Aug. 1. Starting with this large total of $4,259,396,000 Aug. 1, there was a further increase to $4,273,884,000 Aug. 8, followed by a decrease to $4,223,230,000 Aug. 15, and to $4,201,131,000 Aug. 22, but with an increase once more to $4,235,148,000 Aug. 29. As compared with the total of $4,183,919,000 on July 25, the amount for Aug. 29, it will be seen, shows an augmentation of over $51,000,000. The point of most interest in these figures, however, is the changes recorded under the different categories, namely, the loans made by the reporting member banks on their own account, the loans made for account of out-of-town banks and the loans "for account of others," the last mentioned representing loans made by the banks for their large depositors, corporate and individual, had been growing so fast that the banks deemed it incumbent to take measures to hold the expanding tendency in check. As related above, the banks on the one hand increased the rate of interest allowod on their deposit accounts and on the other hand raised the service charge which the depositor is obliged to pay to the bank when it acts as his agent in loaning the money. The higher rates allowed on deposits became effective on Monday, Aug. 6, but the increase in the service charge did not go into operation until Sept. 1. Accordingly there has not yet been full opportunity to test the effectiveness of the new arrangements. The significant fact is that these loans "for account of others" during August rose still higher than before. From $1,832,631,000 Aug. 1, the amount of these loans for account of others increased to $1,863,974,000 Aug. 8, declined a trifle to $1,860,051,000 Aug. 15, then rose to $1,879,655,000 Aug. 23, and further expanded to $1,907,219,000 Aug. 29. At this latter figure comparison is with only $915,475,000 on Aug. 21 1927, showing an augmentation for the twelve months of not far from $1,000,000. On the other hand, the loans made by the reporting member banks for their own account at $792,766,000 Aug. 29 compared with $1,045,669,000 Aug. 31 last year. Of course, the reduction in the latter case is not to be taken necessarily as an indication of a tendency on the part of the banks to restrict this class of loaning. Such a tendency did exist during the break in the stock market in May and June. Now doubtless, it is to be ascribed chiefly to the fact that the banks have so much less deposits to loan out, since a fast increasing amount has been pre-empted by the depositors for loaning on their own account. In the case of the loans made by the reporting member banks for account of out-of-town banks, these have recently been fluctuating considerably, but on the whole have not latterly been increasing, though running much larger than at the corresponding dates in 1927. From $1,602,482,000 July 18, they fell to $1,498,299,000 Aug. 1, then increased to $1,579,742,000 Aug. 15, fell to $1,512,603,000 Aug. 22, and were $1,535,163,000 Aug. 29. At the corresponding date of the previous year (Aug. 31), the amount was only $1,222,914,000.

As to the Stock Exchange figures of brokers' loans, these are more comprehensive than the Federal Reserve compilations, for reasons previously stated, but appear only once a month. The Stock Exchange aggregate had attained a peak at considerably over $5,000,000,000 at the end of May, when the amount was reported at $5,274,046,281, from which there were a falling off to $4,898,351,487 June 30 and to $4,837,347,579 July 31. During August there was an increase again to $5.051.437.405. At the latter figure comparison is with $3,673,891,333 on Aug. 31 1927.

The condition statements of the Federal Reserve Banks showed no changes of great significance during the month. Borrowing by the member banks continued above $1,000,000,000 throughout the month, the discount holdings of the twelve Reserve institutions at first declining from $1,085,776,000 Aug. 1 to $1,002,534,000 Aug. 15, and then increasing to $1,038,773,000 Aug. 29. On Aug. 31 last year, member bank borrowing aggregated only $400,524,000. On the other hand, holdings of aceptances after first decreasing from $165,879,000 Aug. 1 to $161,847,000 Aug. 8, moved up and were $184,299,000 Aug. 29. Holdings of United States Government securities in like manner, after declining from $211,663,000 Aug. 1 to $206,413,000 Aug. 15, increased to $208,964,000 Aug. 29. Total bill and security holdings of the twelve Reserve institutions, after declining from $1,463,808,000 Aug. 1 to $1,399,839,000 Aug. 15, increased again to $1,433,026,000 Aug. 29, at which figure comparison was with only $1,053,786,000 Aug. 31 1927. The amount of Federal Reserve notes in circulation increased from $1,612,690,000 Aug. 1 to $1,650,996,000 Aug. 29. Gold reserves at the same time rose from $2,599,538,000 Aug. 1 to $2,618,809,000 Aug. 29, there having been no outflow of gold during the month of any great consequence. Member bank borrowing at the Federal Reserve Bank of New York, which had been unusually large, showed some change for the better, the amount Aug. 29 being $292,522,000 as against $339,883,000 Aug. 1 and $449,633,000 July 11.

COURSE OF STERLING EXCHANGE DURING AUGUST.

Rates of sterling exchange further declined during August. The influences responsible for this were the same as during the month preceding. The high money rates prevailing here continued to attract European funds to this side, though perhaps this was less important than during July, since most of the foreign banks have a limit for investments in this category and many of them had about reached that limit, leaving comparatively small amounts to be transferred from London to New York. The circumstance that there is less American money seeking investment in Europe than there was a few months ago also helped to depress sterling. But perhaps most important of all was the fact that this is the season when sterling normally declines, owing to the preparations being made for large imports of cotton and grain from the United States and grain from Canada. Bills against such imports appeared to be offered quite freely, the sellers feeling that if they delayed longer they might have to take still lower rates. Bankers' sight bills on London declined from 4.85⅝ Aug. 1 to 4.84⅞ Aug. 31, and cable transfers declined from 4.85 21/32 Aug. 1 to 4.85¼ Aug. 31. There was talk of possible gold imports from London and at 4.85¼ for cable transfers the rate for sterling was believed to be very near the figure at which gold could be shipped at a profit, but no gold was actually taken for the United States. The Bank of England succeeded in further largely augmenting its gold stock during the month. In its statement for the week ending Aug. 8 the Bank showed a gain in gold of £773,025; this was followed by a loss the next week of £284,477, but that in turn was followed by £675,632 gain in the week ending Aug. 22 and £1,044,153 gain in the week ending Aug. 29. There were no exports of the metal of any consequence during the month from New York. The Federal Reserve Bank of New York in its review of the month pointed out that in August for the first time in a year there had been a small addition to the gold stock of the country, as a net result of exports, imports and ear-markings. The Bank said: "Due to the rapid decline in foreign exchanges since May, gold exports in connection with exchange transactions ended some time ago, but, as most of the leading exchanges have held at least slightly above the levels at which gold could be profitably imported, there has been no evidence of a return movement of gold to this country. No special purchases of any considerable amount of gold have occurred in this market since July. Consequently, actual movements of gold during August were the

smallest in about two years. The net gain of gold for the month was due to the release of about $5,900,000 gold that had been held under ear-mark."

THE CONTINENTAL AND OTHER FOREIGN EXCHANGES.

The Continental exchanges shared in the further reaction in sterling. This was due largely to the sympathetic relation existing between all European exchanges and the course of sterling. The German mark declined in common with the rest of the exchanges, but reacted upward more readily than the rest of the exchanges. The German financial position seemed to be steadily improving, the Bank of Germany taking gold from London and also some small amounts from New York. Money rates in Berlin grew easier, but they were nevertheless sufficiently high to be attractive to lenders in other countries. This will explain why German marks, while relatively weak with respect to the dollar, were in such demand at most European centers as to threaten to draw gold from several of them. There was still a steady flow of money from New York to supply the short-time markets of Berlin, but this outflow has been materially reduced since about the beginning of June. There has also been considerable recession in long-term financing in this market for German account. There has likewise been a reduction in the demand for marks for tourist purposes and for accumulation against cotton and grain import bills in the German centers. The German mark for checks declined from 23.87 Aug. 1 to 23.79½ Aug. 10, then recovered to 23.84 Aug. 18, after which there was renewed decline, leaving the range Aug. 31 23.80½@23.82½ Aug. 31. The Bank of Germany reported a decrease in note circulation the first week of the month of 220,833,000 marks, a decrease of 214,070,000 marks the second week, and a decrease of 164,772,000 marks the third week, with 703,437,000 marks increase the fourth week. The Bank also kept enlarging its gold holdings, reporting an increase of 32,345,000 marks the first week, 8,916,000 marks the second week, with 6,000 marks decrease the third week, but 7,221,000 marks increase again the fourth week. The Italian lira remained quite steady, though the latter part of the month some slight disturbance was occasioned by a false report that the Bank of Italy had reduced its rate of discount from 5½ to 5¼%. While this report was untrue, the belief in well-informed circles in London was nevertheless that the rate would soon be reduced to 5%. The French franc on checks was down to 3.90 1/16 Aug. 31 against 3.91¼ Aug. 1. The Greek drachmae was comparatively steady and the rate for bankers' checks on Greece was 1.29@1.29¾

Aug. 31 against 1.29⅛@1.29¾ Aug. 1. The rate for Belgian belgas also showed only nominal changes. The Polish zloty was 11.25 Aug. 31 against 11.15 Aug. 10 and 11.20 Aug. 1.

Exchange on the countries neutral during the war showed relatively slight changes except in the case of Dutch guilders, for which the range for checks Aug. 31 was 40.06½@40.08 against 40.15@40.19 Aug. 1. Guilders were under more or less pressure all through the month. There was a considerable flow of Amsterdam funds to London and the German markets and to some extent to New York, the high money rates here being the inducement. Dutch exchange was also under seasonal influences, which made for lower rates in connection with the increase in volume of import payments against cotton and grain. The feature of the month, however, was the Spanish peseta. On Aug. 7 it was announced that J. P. Morgan & Co. with other bankers in several American cities had made a stabilization credit available. Credit for a similar purpose had been arranged in London. No stated amounts were given, but it was understood that the amount guaranteed by the American bankers was $25,000,000, and that guaranteed by the London institutions the same amount. On the strength of this news there was heavy speculative buying with the result that the peseta on Aug. 7 rose 38 points with 5 points further rise on Aug. ,8 the quotation on the latter date touching 16.85 against 16.41 on Aug. 6. But this advance was not maintained and the quotation Aug. 31 was 16.59½@16.62 after having been as low as 16.51 on Aug. 23. Swiss francs varied scarcely at all during the month and were 19.24⅞@19.25½ Aug. 31 against 19.24¼@19.25½ Aug. 1. The Scandinavian exchanges were also pretty steady, though the Swedish krone moved higher and was 26.76 Aug. 31 against 26.74½ Aug. 1. The Swedish Reichsbank on Aug. 23 advanced its discount rate from 4% (the figure in effect since May 1) to 4½%. The Bank of Finland on Aug. 8 raised its discount rate from 6% to 6½%, this being the first change made by that institution since Nov. 23 1927. The Danish crown for checks was 26.68 Aug. 31 against 26.69 Aug. 1, and the Norwegian crown 26.68 against 26.68½@26 69.

In the South American exchanges the Argentine peso showed weakness, the rate for checks dropping from 42.24@42.25 Aug. 1 to 42.06@42.19 Aug. 23, with the range Aug. 31 42.10@42.15. There seemed to be no special reason for this except that the incoming President, Hippolito Yrigoyen, had served a previous term from 1916 to 1922 and had then developed radical tendencies. The docks strikes which were a factor in depressing the rate previously were no longer a disturbing element. Brazilian milreis fluctuated somewhat erratically, but with the quotation Aug. 31 not greatly different from that of Aug. 1, namely, 11.88@11 92 against 11.90@11.96 Aug. 1. The event of the month was the return of Bolivia to the gold standard. Bolivian exchange is never a factor of any consequence in the foreign exchange market at New York, but it is nevertheless of interest to note that the recommendations of the Kemmerer Commission for financial and monetary reforms have been enacted into law. The recommendations follow the principles successfully established in the financial and economic organization of other Latin American countries since the war, and call for the appointment of an American economic expert as advisor to the Bolivian Government. Bolivia has been off the gold standard since 1914. The new legislation stabilizes the boliviano at an exchange rate of approximately 36½c. compared with the previous parity of 38.9.

In the Far Eastern exchanges Japanese yen were again weak, the weakness being ascribed partly to the troubles between China and Japan on account of Manchuria, with the continuance of the Chinese boycott against Japanese goods. But some of the weakness is also believed to have been due to heavy investments of Japanese interests in sterling and dollar securities. Money rates in Japan are low and this situation induces an outward flow of surplus funds, chiefly to London and New York for investment in security markets. The Chinese exchanges moved lower apparently because of the decline in silver, as Chinese business has latterly been recovering very rapidly, showing a remarkable resumation of confidence on the part of the Chinese people in the political outlook. The yen on Aug. 16 sold down to 44.54 against 45.20 on Aug. 1 or to the lowest figure reached since Jan. 1926. There was later some recovery in the price of yen checks, the range Aug. 31 being 45.20@45.22. Dollars on Hong Kong were 49.80@49 13/16 Aug. 31 against 50 1/16@50.10 Aug. 1. Shanghai tael for checks were 64 7/16@64 9/16 Aug. 31 against 65 7/16@65½ Aug. 1. Rupees on Bombay were higher, the rate for rupee checks after dropping from 36.14@36.20 Aug. 1 to 36.10@36.20 Aug. 4, rising to 36.28@36.33 Aug. 18, with the close 36.23@26.31 Aug. 31. Silver in London declined and the price Aug. 31 was only 26 11/16d. per ounce against 27⅜d. July 31.

New York Stock Exchange

MONTHLY AND YEARLY RECORD

RANGE OF BOND PRICES DURING AUGUST 1928.

Bond Sales.	1928.	1927.	Stock Sales.		1928.	1927.
August	$178,865,000	$241,665,150	August	Shares	67,191,023	51,205,812
Jan. 1 to Aug. 31	2,052,139,825	2,243,399,200	Jan. 1 to Aug. 31		522,054,264	301,382,730

The tables on pages 15 to 36 furnish a complete record of the transactions on the New York Stock Exchange during Aug. and since Jan. 1 1928. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The black-faced letters in the column headed "*Interest Period*" indicate in each case the month when the bonds mature.

In accordance with the rule adopted by the New York Stock Exchange in 1909, all quotations for interest-paying bond are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. A few other bonds, like the Holland-American Line 6s and the Anton Jurgens Works 6s, for special reasons, are also quoted "flat," but where this is the case the notation "*flat*" will be found against the name of the issue. This method of quoting bonds became effective January 2 1909.

For footnotes to tables see last page of bonds and last page of stocks.

General Quotations

OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and descriptions, not only those dealt in on the exchanges but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

	Page		Page		Page
Steam Railroad Bonds	64	Public Utility Bonds	70	Insurance Stocks and Scrip	81
Steam Railroad Stocks	68	Public Utility Stocks	76	Real Estate Trust and Land Stocks	82
Joint Stock Land Bank Bonds	69	Industrial & Miscellaneous Bonds	78	Title Guarantee and Safe Deposit Stocks	82
Joint Stock Land Bank Stocks	69	Industrial & Miscellaneous Stocks	82	United States and Municipal Bonds	86
Federal Land Bank Bonds	66	Exchange Seats	80	Canadian Municipal Bonds	87
Real Estate Bonds	80	Textile Manufacturing Stocks	81	Foreign Government Bonds	87
Investment Trust Stocks and Bonds	69	Mining Stocks	81		

Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue*. As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "*f*" is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

The letter "*f*" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gu" for guaranteed, "end" for endorsed, "cons" for consolidated "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

Industrial and Miscellaneous Securities

Under the heading "Industrial and Miscellaneous Securities" we include all issues which *do not* appear under the previous two headings, namely "Railroads (Steam)" and "Public Utilities." In the case of stocks, however, we put "Textile Manufacturing," "Insurance," "Mining," "Real Estate and Land," "Title Guarantee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous."

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

United States and Municipal Bonds

In reporting below prices for State and municipal securities, we give bid and asked quotations wherever they can be obtained. The custom, however, is to quote municipal securities on the basis of the return they yield per annum. Therefore in most cases it will be found that instead of actual prices we have inserted in the column headed "To Net" certain figures to indicate the interest rate at which business in the bonds is being done. Thus 4.35% means that the particular security can be bought or sold at a price that will yield the purchaser or seller 4.35% per annum to the maturity of the issue. Where two figures appear, as for instance "4.35% to 4.25%," the rate of return varies according to the maturity—the shorter maturities yielding the lowest rate, and the longer maturities yielding the highest return. Recently however, owing to the tension in the money market, it has happened in not a few instances that the shorter maturities have been yielding the highest rate of return and the longer maturities the lowest rate of return, and where that happens to be the case, the range has been reversed to read, say 4.35% to 4.25%.

In State and municipal bonds the custom has always been to quote them "and interest." That is, the accrued interest must in all cases be added on. There are a very few which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*f*).

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of Canadian Institutions, and are as near as possible for the *closing day of the month preceding date of issue*, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.
